Cost of a Congressman's Death.—
The death of a member is something of a perquisite, custom having established the usage of maintaining a sort of professional mourning on the part of the House, something of the House, something after the style of the hired mourners of England and Scotland. If a member dies at Washington, the Sergeant-at-Arms may pay the landlord of his hotel \$100 for having granted the privilege of a death in his house. Six stalwart men must then watch, with two reliefs, by his bed during the period that the body is in the custody of the House. Better for some of the dead that they had been more closely watched before they left the Legislative halls! Deputies must attend the body to its deatination in the State of the deceased, unless the friends claim the right of burial in the Congressional Burying ground. Altegether, and I have a definite case in mind, it costs about \$2,000 to bury a Congressman decently who dies in Washington. The funeral expenses cost a little more than the back pay for one year. Perhaps the back pay in serve as funeral expenses for some, without the benefit of clergy. Gentlemen watch-dogs of the Treasury anxious to practice economy, would do their constituency.

LONDON CLIMATE.—Influenza is the condition upon which alone one can live in London now. Sir Samuel Baker, whose health is still in a precarious condition, remarked, yesterday, to a friend that, after enduring the climatic dangers of Africa, with hunger and capture for four years he had returned to London only to go to bed with inflammation of the lungs, and remain there till now. And yet some invalids find this region the best for them. Mr. Motley, who I regret to say is still seriously threatened with paralysis, has found the Holland climate inimical, and dreads the South, and has resolved to Winter in London. Tennyson, too, who does not enjoy perfect has resolved to Winter in London. Tennyson, too, who does not enjoy perfect health, has found his new hill-top in Surrey hardly worthy the inscription it bears, "Gloria in excellsis," and thinks of escaping the glorious hight by coming to live in London, where he is now residing temporarily in the house of Lady Franklin. —[Correspondence Cincinnati Commercial.

DOCTORS AND SEWING MACHINES. - The New York World thinks the sewing ma-chine is the greatest ameliorator of the condition, of women that was ever invented. It has done more, it says, to free the entire sex from the slavery of the needle than any thing else could pos-sibly do. Yet doctors denounce it purely apon principles of medical logic, and say that it is injurious to female health. But it enables her to do in two hours the necessary work which she could not do in less than twelve hours with the needle. Unless, therefore, it is argued, doctors are prepared to say that woman takes nore injury from two hours at the sewing machine than she receives from twelve hours at the needle, their dia-tribes against this household blessing go

A CORRESPONDENT of the Exeter, N. H., News Letter says that in the old town of Newmarket, now Newmarket and South Newmarket, the population being 2,395, and an area of sixteen square miles only, there are yet living eight soldiers of the war of 1812, seven being pensioners, and the united ages of all are 646 years; this is an average of one in 350 of the whole population, and for New England alone the same ratio would amount to the number of 10,165, or in the United States to about 114,000. This is probably without a parallel in the history of the whole country.

The Secretary of the Interior has affirmed Commissioner Drummond's decision, rejecting the claim of Calvin Jackson and others for a patent to the Tiger lode, Arizona, which is claimed by the Tiger Silver Mining Company. The rejection is based on the fact that the adverse claimants did not have a survey of the premises claimed by them made, as required by the seventh section of the Mining Act of May 10, 1872.

Tax wholesome order of Chief Cockrill, requiring the members of the police force to pungle out their dime when they order their drink, will meet with the hearty spproval of saloon-keepers; but doubtless a murmer of discontent will go up from the guardians of the peace, like that which went up in Judea when the decree of Casar Augustus went forth, that all the world should be taxed.—[Alta.

The imperfections of the jury system, and the disagreeable and dangerous abuses to which it is subject, are daily revealed in different parts of the country. In Cincinnati the other day a juror who had been drinking liquor became drunk in the heated atmosphere of the courtroom and was placed in the custody of the Sheriff. It was the second case in a week in that court-room.

Ar the laying of the corner stone of the new capitol of Iowa the other day, no speeches were made, except a few re-marks by a workman, who got his fingers pinched, and they were brief and to the point.

NILSBOX received a conditional invita-tion to sing at the Newark Exposition. It was her own fault that she did not go. She asked \$3,000, it is stated.

HAVING THIS DAY PURCHASED THE Walker House, we are now in possession of the two best hotels in Salt Lake City. Of the Walker House we deem it unnecessary to say anything in its behalf, its splendid design and elegant equipment being so well known to the public.

The CLIFT HOUSE, though not so well known as the Walker House—having been open but a few weeks—is first-class in all its appointments, the building being new and the furniture of the most fashionable and elegant style. The location of this liouse is central and commands a splendid view of the lake and ever snow-clad mountains and surrounding scenery, its local reputation is superior to that of any other house in the city.

With the above facilities at our command we feel assured in guaranteeing satisfaction to all.

Respectfully, etc.,

FLORENCE. Special attention is called to the great improvements made recently in this excellent Machine, and to the new and elegant styles of Cases added to our list.

FLORENCE.

For those who prefer a Ma-chine feeding the work away from the operator, we now have one of that description, quiet, easy-running and having all the other peculiar ex-cellencies of the other style.
